
Published outlooks
EirGrid capacity statements
11 editions, 2015 to 2026
Low, Median, High
by target year
Metered outcomes
CSO data centre and
total metered electricity
2015 to 2025; ratio r
(Eq. 1)
1 Score editions
coverage of the published
range, signed error, interval
score, CRPS by horizon
(Eqs. 2 to 5)
2 Recalibrate
horizon scaled log errors
split conformal quantiles
leave one edition out
(Eqs. 6 to 8)
3 Calibrated outlook
total demand and the
data centre component
to 2035
(Eqs. 9, 10)
4 Energy and exergy
balances by stage,
avoidable destruction,
recoverable heat exergy
(Eqs. 11 to 16)
External checks: Netherlands (CBS, PBL)
and Great Britain (DESNZ, NESO);
forecaster baselines and scenario
ranges against metered data
